**"Mother Tongue," by Amy Tan** QUESTIONS

You may discuss each 2 paragraphs. If you have a copy you can underline, number the paragraphs and use the following questions to guide your paragraphs.

**A. The author writes in an informal tone. Circle the correct response. One point. 8 by writing a sentence that proves your answer.**

Paragraph 1.8

1. Amy Tan writes in an informal tone.  T  F

2. An American language is called "mother tongue."  T  F

3. The word "mother tongue" is her grandmother.  T  F

Paragraph 2.7

4. Amy Tan is not talking about her "mother tongue" at all.  T  F

5. Amy Tan has not been greatly influenced by her "mother tongue."  T  F

**B. Answer three questions.**

Paragraph 4.6

6. According to Tan, what other languages were used in her "mother tongue" when she was a child? (mother tongue)

7. What did her father say to her about English in school?

8. What did Amy Tan often think about her mother?

9. In paragraph 15, what are important?

## How Can A Classification Key Be Used To Identify Organisms?

|  |                   |
|--|-------------------|
| Subject: Life science, classification  | <b>Grade: 6-8</b> |
| Lesson Topic: Classification, Dichotomous Keys   | Length: 1         |
| <b>Learner Objective:</b><br>After completing this investigation students will be able to:<br>1) Identify a set of pictured organisms by using a classification key with 100% accuracy<br>2) Utilize a dichotomous key for the identification of a set of pictured organisms, with 90% accuracy of content.  |                   |
| <b>Introduction:</b><br>Future studies of invasive weed species will involve the need to understand dichotomous keys. These practice lessons, although not specific to alien weed species, provide students with a means to gain understanding of keys using plants and animals that are more familiar to them. Once the skill has been learned, it is easily transferable to the study of other plants and animals that may not be as familiar to students.   |                   |
| <b>Content:</b><br>Suppose while walking through the woods you find a large colorful wildflower. Chances are the flower has already been named and classified, but how can you learn its identity? As an aid to help others identify unknown organisms, biologists have developed classification keys.<br>Many kinds of classification keys have been developed to identify wildflowers and many kinds of plants and animals. Though some of these keys may vary in purpose and complexity, they share certain features in common. These classification keys are often called <i>dichotomous keys</i> . The word <i>dichotomous</i> comes from the word <i>dichotomy</i> meaning "two opposing parts". A dichotomous key presents the user with two opposite statements about some trait of an organism. By choosing the statement that best describes the unknown organism, the user is led to further pairs of statements. By going from one set of statements to another, the name of the organism or its classification group is finally discovered. |                   |
| <b>Materials and Supplies:</b><br>Overhead of wildflowers<br>Overhead of frog anatomy<br>Overhead of frog species<br>Classification packet for each student (includes pictured organisms and worksheets)   |                   |

## Summary of mother tongue by amy tan.

In order to continue enjoying our site, we ask that you confirm your identity as a human. This Amy Tan "MOTHER TONGUE" BUNDLE (Suggested Uses, Posters, Argumentation Development, Discussion Questions, 2 exams/quizzes, Documentary, AP Language DCS Task Cards, VIDEO PROJECT, Writing a Thesis Template, and more!) provides students a chance to experience what happens when we appreciate our heritage and who was are. This academic essay allows students to read and analyze this canonized work about appreciating their culture and heritage. 10th - 12th Graders will love this short work and prPage 2Get your students excited about poetry with this hands-on, interactive escape room. Students will work through five different classic poems (Robert Frost, Claude McKay, Amy Lowell, Georgia Douglas Johnson, and Edgar Guest). Using their knowledge of symbolism, rhyme scheme, repetition, figurative language, and metaphor, students will work to unlock clues to return missing poets to their poems. The game ends when the winning team identifies which poet wrote each poem. The Poetry Escape Room incPage 3Classroom YES DAY Kit- End of Yearby Happy "Yes Day" to you and your class. This is the perfect way to wrap up the end of the year together. Here's how to prepare: On the day before your "Yes Day," get your class excited about it by reading the "Yes Day" book by Amy Krouse Rosenthal. After reading the story, begin brainstorming lists of realistic and unrealistic things that you could accomplish during a Yes Day that takes place at school. Give each student a slip of paper with the What Would You Like To Do At School? question at thGrades:Types:Mixed Numbers & Improper Fractions On a Number Lineby This resource contains 11 scaffolded practice pages. Students get lots of practice transferring their understand of a visual fraction to an improper fraction or mixed number. From there, they get to practice transferring their understanding if the fractions to a number line representation.\*\*All FONTS from Amy Groesbeck \*\*Her fonts are the best!!
